HERBAL SPA products

BODY WRAP

The heart of the Spa ritual through targeted treatments declined into a panorama of various textures

Gel for Body Pack
Orange

Item Code: 4G09

Ready-to-use, these gel-based body wraps are a quick and effective way to proceed to a body wrap thanks to their syrup texture rich in micronized plants. As this product is easy to remove, it is the ideal treatment for beauty salons without shower. no shower is required.

A fruity & energizing gel for body pack

The pleasant smooth texture of the orange gel makes it very easy to use and can be applied with a brush. Its thickness prevents it from running. Sweet orange peel is transformed into micronized powder to ensure that its active ingredients are easily available during the treatment. This Orange Gel is designed for tonifying and revitalizing Spa treatments.

Un gel d'enveloppement fruité & énergisant

La texture lisse du gel d'orange est très facile à utiliser et non-coulante, parfaite pour une application au pinceau. Les ingrédients actifs issus des écorces d'orange douce sont micronisées afin qu'ils soient facilement assimilables pendant le soin. Ce gel Orange est idéal pour des soins de Spa tonifiants et revitalisants.

Orange for a tonifying & decongesting treatment

Sweet Orange peel is a unique source of vitamins A & C, bioflavonoids and essential oil. The sweet orange essential oil is mostly composed of limonene, a potent tonifying ingredient for dry and congested skin. It is an excellent skin tonic.

L'orange pour un soin corporel tonifiant & décongestionnant

L'écorce d'orange douce est une source unique de vitamines A & C, de bioflavonoïdes et d'huile essentielle. L'huile essentielle d'orange douce, contenant du limonène, constitue un excellent tonique pour les peaux sèches ou congestionnées.

Directions for use

After a scrubbing treatment, apply the gel (300ml for a full body treatment) in thick layer with a brush. The client is placed in a plastic sheet and a warming blanket. Duration: 30 to 40 minutes.

Après un gommage corporel, appliquer le gel (300ml pour un soi corporel complet) en couche épaisse au moyen d'un pinceau. La personne est placée dans un drap plastique et une couverture chauffante. Durée: de 30 à 40 minutes.
