HERBAL SPA products

BODY SCRUB

The first step of any Spa ritual to purify the skin & prepare it for further treatments

Granite' Scrub
Red fruits

Item Code: P310

Such a vegetal & granite-like friction, this ready-to-use body scrub is a pure plants and spices concentrate. A new texture which sprinkles the skin with raw plants blends made off seeds, shells, kernels and roots, releasing a light foam on wet skin. To be used in cabin or at home, this authentic product mixes at perfection innovation and authenticity.

Directions for use

To obtain an optimal exfoliating and foaming effect, use it on slightly wet skin.

Pour un effet exfoliant et moussant optimal, il s'utilise sur peau légère-ment mouillée.

Jars : 200 or 500 ml
Sachet : 20 g

A unique natural exfoliation for an anti-ageing effect

This plant-based body scrub has a tantalizing and innovative texture; it is a ready-to-use body scrub which gently emulsifies itself on wet skin. The cocktail of red fruits that is at the heart of this product smoothly polishes the skin while deeply nourishing and protecting it, releasing its anti-ageing actives.

Une exfoliation végétale unique à l'effet anti-âge

Telle une friction végétale, ce gommage corporel prêt à l'emploi s'émulsifie sur peau mouillée pour créer une mousse légère. Le cocktail de fruits rouges au coeur du produit lisse la peau tout en la nourrissant et en la protégeant, libérant ses actifs anti-âge.

Blackcurrant, strawberry, raspberry & cranberry

This red fruit cocktail unveils an outstanding richness of anti-oxidising agents such as tannins, anthocyans, polyphenols, tocotrienols and tocopherols. It also concentrates omegas 3, 6 and 9, essential fatty acids that help to maintain the hydrolipidic layer. Skin appears fresh, healthy and young.

Apricot

As a popular scrubbing agent, this typical mediterranean exfoliant ingredients acts in synergy to whisk away skin dullness & roughness.

Cassis, fraise, framboise et cranberry

Ce cocktail de fruits rouges est très riche en agents antioxydants tels que les tanins, anthocyans, polyphénols, trocotriénols et trocophérols. Il concentre aussi omégas 3, 6 et 9, acides gras essentiels renforcant la barrière hydrolipidique.

Abricot

L'abricot, agent exfoliant reconnu, agit en synergie pour éliminer les cellules mortes. Il apporte à la peau une sensation de douceur, un toucher soyeux et améliore son confort.
