

Apricot EXFOLIATOR

actifs exfoliants naturels

A natural exfoliant adapted to any formulations

A scrub easily used in any formulation types

Apricot Exfoliator is a well sieved powder obtained from the shell of the apricot kernel. It is very stable and adapted to any formulation type, even those based on water. It can be used in cream, gel, paste, powders and bar soaps. According to the size of the particles, the exfoliation process is more or less powerful.

Une poudre exfoliante pour tous types de textures

Apricot Exfoliator se présente sous la forme d'une poudre finement calibrée obtenue à partir de la coque du noyau d'abricot. La poudre est d'une grande stabilité et adaptée aux diverses textures, y compris celles riches en eau. On l'utilise dans des crèmes, gels, pâtes, poudres et savons. Selon la taille des particules, l'exfoliation est plus ou moins énergique.

4 different grades

Apricot Exfoliator is available in different sizes so as to be integrated in various projects.

Selon le projet, Apricot Exfoliator est disponible sous différentes fractions granulométriques.
