3 tailles de particules au choix

LUFFA Exfoliator

Soft plant fibbers for exfoliation

Luffa Exfoliator is presented as a powder made of particles which are very homogeneous in size. It allows an accurate and soft exfoliation. Luffa Exfoliator is easy to process in cosmetics as the fibbers remain stable and hard in any kind of products, even in though containing a large amount of water.

Fibres végétales pour une exfoliation douce

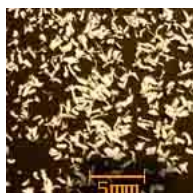

La poudre de Luffa Exfoliator est constituée de particules d'une taille homogène afin de garantir une exfoliation régulière. Luffa Exfoliator est compatible avec toutes les textures et reste stable et résistante, y compris dans les gels aqueux.

In order to comply with the various project Luffa Exfoliator is available in 3 different grades (particles sizes).

Pour répondre aux différents projets, Luffa Exfoliator est disponible selon trois fourchettes granulométriques.

LUFFA 30

Fine grade
Cosmetics

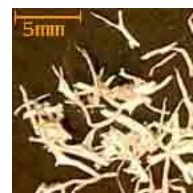

LUFFA 20

Medium grade
Cosmetics, Soaps

LUFFA 5

Long grade
Bar soaps

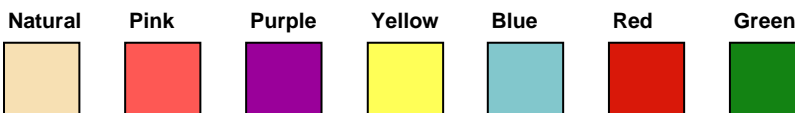

Chose the colour

7 coloris au choix

Luffa Exfoliator is available in 7 vibrant colours for visual effects. Luffa fibbers are tinted by soaking them into the colorant, a process which improves the stability of the colour even in gels containing tensioactives.

Luffa Exfoliator est disponible en 7 couleurs standards. Les fibres sont teintées par imprégnation, ce qui permet de mieux garantir la stabilité des produits.

Luffa (Loofah) is a member of the Cucurbitaceae family. It produces a fruit containing hard fibbers. Lessonia manufactures LUFFA EXFOLIATOR by grinding and seaving the fibbers into fine and homogeneous particles.

A palette of 25 colours and scents designed for the current cosmetic nuances.
