(\*)Bio : Organic certified

## 2 } ABRASIVENESS

## 3 } MARKETING IMPACT

Lessonia was the first to offer Exfoliator made from the argan shell. Today, Argan is a major plant used in cosmetic industry.

Argan is produced by several women's co-operatives in the region of Agadir in Morocco.

Argan particles are really nice with a pale golden brown colour, homogeneous in shape.

## 4 } COMPATIBILITY & STABILITY

Stable in all types of formulations including aqueous formulations.

The abrasiveness of particles do not change. The particles do not bleach and do not colour the product.

The Argan Exfoliator is easy to maintain in suspension.

## 5 } REGULATORY CONSTRAINTS
