- 2 micronizing lines

GRINDING :

- 11 grinding units
- 6 sieving machines including metal detector
- 2 sterilizers based on thermal process (without gamma ray) for organic cosmetic
- 2 powder mixers

Sustainability

A TRUE SUSTAINABLE COMMITMENT, ROOTED IN OUR DNA AND REWARDED

Since 2002, we have always designed and manufactured cosmetic solutions with a global sustainable approach. It is in our values and DNA to offer products which has been carefully produced. We are daily committed to reducing our environmental impact and stimulating circular economy.

We offer a global sustainable approach because we are committed to respecting environment and human well-being, not because it is trendy.

INGREDIENTS UPCYCLED

We always favour an upcycling approach to design our cosmetic ingredients. By revalorizing by-products, considered as wastes in other industrial activities (such as food industry), we can offer natural ingredients with a sustainable approach.

NATURALNESS & ORGANIC

All of our ingredients solutions are coming from a natural origin.

When it is possible, we systematically offer organic alternatives, conform to ISO 16128, ECOCERT, COSMOS, and other organic charts. This allows our customers to choose between natural or organic solutions.

A SUSTAINABLE APPROACH REWARDED

Thanks to our efforts, we have been rewarded several times for our CSR policy and our ingredients.

- **LABELLED ECOVADIS IN 2019**
FOR OUR CSR POLICY

- **GOLD GREEN AWARD IN 2018**
FOR OUR ACTIVE INGREDIENT FUCOREVERSE

- **BRONZE GREEN AWARD IN 2016**
FOR OUR EXFOLIANT CELLULOSCRUB

- **BEST EMPLOYER 2018 IN OUR AREA**
THANKS TO OUR RECRUITMENT POLICY
